LDPE Polythene Bags

High performance, high slip & high clarity polythene bags in a LDPE material giving a multi-purpose bag for a wide range of applications. With a comprehensive range of stock sizes and many more available next day we offer a complete solution to your bagging needs.

Bespoke Polythene Bags

Can't find the size you need??

Want a thicker/thinner grade??

We offer a fully bespoke service from quantities of just 1000 bags so you can be sure of getting the perfect size and thickness you need. We can also make bags to your particular colour or with bespoke printing such as a logo or text.

Polythene Bags for Bagging Machines

If you are using a bagging machine you may be familiar with the problems incurred through using anything but the right bags. Different levels of slip, weld methods and packing style all can make a significant difference to the smooth running of your machine. Trust our Sales Team to suggest the correct combination for your particular machine.

Ask about our wide range of polythene heat sealers.

Bespoke Polythene Products

Here at Datec Packaging we can offer a wide range of bespoke alternatives to our standard range of polythene products. Below are a few options that can be combined to give you a bespoke option that protects your products perfectly.

Bespoke Lengths, Widths & Thicknesses

We can change the length, width and thickness of your polythene product to suit the item you are packing. We can supply widths from just 25mm up to gusseted widths of over 3000mm, thicknesses between 20mu and 250mu and the lengths are almost unlimited!! Film can be single wound, centre-folded, multi-folded or Z-folded, bags can be loose bulk packed, boxed or perforated on a roll.

For extra large out-sized bags we can offer hand-made solutions for which we can literally say "the sky is the limit".

Film Types and Bespoke Materials

A vast number of film types can be made to optimise operational performance for your application. Static levels, stiffness, strength, winding tension and slip levels are some of the factors that can greatly affect the performance of the film you use. We can adjust these properties and develop bespoke films to maximise your output and minimise your packaging costs.

We can also change the film density; HDPE, MDPE and LDPE are all options which you can choose from as well as completely changing the material itself. Polyprop films, metallised films and laminated films can all be manufactured to provide a film that truly works better and saves you money.

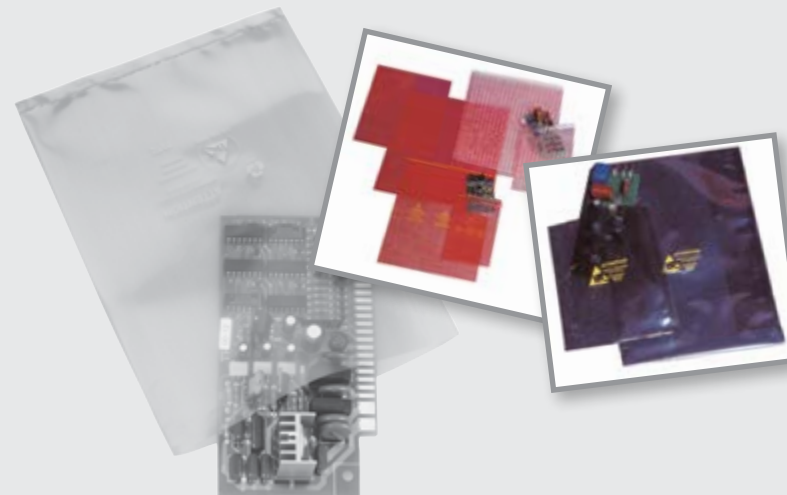

Printing & Film Colours

When it comes to colours and printing we can really get creative. Many different tint levels can be used with almost any pantone colour to provide almost any film colours from light tints to absolutely opaque.

Printing can be done in line with extruding which is more cost-effective but can only be spot colour printing and logos. Alternatively we can offer printing quality up to full colour process print CMYK and 2 spot colour giving you a full spectrum of options to fit your required image and budget.

Special Additions

On top of the sizes, film types and colours we can also insert gripseal, slider seal and self-adhesive strips for sealing your bags quickly and efficiently. Bottom gussets, plastic handles, euro hanging tabs and re-seal options can also be added for extra retail added value and better presentation.

ESD Polythene Bags

This product is manufactured from metallic polyester, laminated to antistatic polyethylene. This provides true shielding to static sensitive devices by the "Faraday Cage" principle with its inner antistatic layer preventing static charge generation. Printed with ESD warning.

Code	Description	Pack Qty
MESD0608GS	Metallised ESD Anti-Static Gripseal Bags 6" x 8"	500
MESDB0010GS	Metallised ESD Anti-Static Gripseal Bags 8" x 10"	500

MESDB0608	Metallised ESD Anti-Static Bags 6" x 8"	500
MESDB0810	Metallised ESD Anti-Static Bags 8" x 10"	500

VCI Polythene

VCI is a chemical compound which emits a rust-inhibiting vapour into the air to eliminate the formation of rust and corrosion on virtually any metal surface. VCI can help eliminate the need for messy liquid rust preventatives and other rust inhibitors that are not friendly to the environment. VCI products are often used in conjunction with our Packaged Desiccants to offer the industry's most comprehensive solution to guard against long term condensation and corrosion issues.

VCI polythene is an LDPE film which has this VCI additive infused into it during manufacture to provide a flexible packaging which is waterproof and prevents your products from corrosion. We can convert VCI polythene into bags, sheets and covers as well as layflat tubing and shrinkfilm.

Speak to our Sales Team to discuss your needs further.

Film Front Bags

Clear plastic fronted bags with a paper back, ideal for confectionary, books and other small retail items.

Code	Description	Pack Qty
FF0406	Film Front Paper Bag 100mm x 150mm	1000

VGCB2423	Variguage Carrier Bags 600mm x 575mm White	250
VGCB2823	Variguage Carrier Bags 700mm x 575mm White	250

Polythene Heat Shrink Systems

When you need high pallet stability and/or flexible conformability consider our range of polythene heat shrink systems. Ideal for packaging a range of awkward shaped items protecting from abrasion and scratching. Polythene heat shrink systems are a very high performance pallet stability product considerably increasing pallet rigidity and security. Also protects from water damage as this product is water proof and produces a completely sealed package when applied correctly.

Polythene Heat Shrink Sheeting

Flat sheeting on a continuous roll for packaging parcels and awkward shaped items. Most widths are centre folded or multi folded on a roll to increase the ease of handling. Cut the required length of film, open the film out and wrap loosely around your products then use a heat gun to shrink the film tightly around your products.

Code	Description	Grade	Pallet Qty
PS751550CF	Polythene Sheeting CF 750/1500mm x 150m 125mu Heatshrink	Heavy	20 Rolls
PS102035CF	Polythene Sheeting 1000/2000mm x 125m 87mu Heatshrink	Medium	20 Rolls
PS102072CF	Polythene Sheeting 1000/2000mm x 150m 180mu Heatshrink	Extra Heavy	10 Rolls
PS104025MF	Polythene Sheeting 1000/4000mm x 50m 62mu Heatshrink	Medium	20 Rolls
PS122450CF	Polythene Sheeting CF 1200/2400mm x 90m 125mu Heatshrink	Heavy	20 Rolls
PS204050CF	Polythene Sheeting CF 2000/4000mm x 110m 125mu Heatshrink	Heavy	10 Rolls

Polythene Heat Shrink Pallet Covers

Covers designed specifically for covering pallets but also can be used for a variety of other items. These pallet covers are perforated on a roll, tear a cover off pull over a pallet then use a heat gun to shrink the film tightly around your pallet creating a secure waterproof barrier.

Code	Description	Pack Qty	Pallet Qty
PC19EURO	Pallet Shrink Hoods 1300/2150mm x 1850mm 125mu	30/Roll	20 Rolls
PC15STD	Pallet Shrink Hoods 1270/2340mm x 1500mm 125mu	30/Roll	20 Rolls
PC20STD	Pallet Shrink Hoods 1300/2350mm x 1950mm 125mu	30/Roll	20 Rolls
PC20STD	Pallet Shrink Hoods 1300/2550mm x 2050mm 125mu	25/Roll	20 Rolls
PC21STD	Pallet Shrink Hoods 1300mm/2400mm x 2100mm 125mu	30/Roll	20 Rolls

VariCover System - Polythene Heat Shrink Tubing

The perfect solution if you are shipping out various pallet heights, with VariCover you can make your own bag length quickly and easily. The VariCover dispenser has a sealer bar and cutter so just pull out the required length of film, seal and cut to make your own bespoke pallet covers and bags.

Code	Description	Grade	Pallet Qty
VC22550	VariCover Heat Shrink Tubing 1250/2250mm 125mu	Heavy	20 Rolls
VC23080	VariCover Heat Shrink Tubing 1200/2300mm 200mu	Extra Heavy	20 Rolls

Patented Cold Nozzle technology makes the Ripack guns safer to use

Heat Gun Kits and Accessories

Heat Gun Kits and Accessories for heat shrinking polythene sheeting and pallet covers.

Ripack 2200 - Light and easy to handle, fatigue free and fast working, the rotating nozzle and swivel gas connection prevent the hose twisting and enhance operator performance.

Ripack 3000 - 15% faster due to high heat output, more comfort from improved handle grip, large suspension ring for attaching the gun to a retractable tool balance and a spare igniter is now stored in the handle and can be replaced without tools in less than a minute!! Also comes complete in a carrying case serving as a stable footboard capable of elevating an operator of 120kg by 27cm.

Code	Description
GSG100	Standard Gas Heat Shrink Gun Kit
RP2200	Ripack 2200 Propane Gas Shrink System
RP3000	Ripack 3000 Propane Gas Shrink System
GBT	Gas Bottle Trolley and Shrink Gun Holder

Our Ripack 3000 gun is 15% faster!!

Our Ripack 3000 gun comes with a carry case and hop-up!!

Megatop Pallet Top Sheets

Polythene pallet top sheets for covering and protecting the tops of pallets. Creates a water-tight cover over your products to protect against water damage.

Code	Description	Pack Qty
MEG1816C	Megatop Pallet Top Sheet 900/1800 x 1600 MD18	500/Roll
MEG1816B	Megatop Pallet Top Sheet 900/1800 x 1600 Black LD30	250/Roll
MEG1315C	Megatop Pallet Top Sheet 1300 x 1500 MD18	500/Roll
MEG1715C	Megatop Pallet Top Sheet 850/1700 x 1500 LD30	250/Roll

Wire Twist Ties

Coated wire twist ties with looped ends for sealing sacks and bags. Provides a heavy duty sealing method in a few seconds which is easily removed by your customer.

Code	Description	Pack Qty
WTT100	Wire Twist Ties 100mm x 1.25mm	5'000
WTT150	Wire Twist Ties 150mm x 1.25mm	5'000
WTT200	Wire Twist Ties 200mm x 1.4mm	3'000
WTT250	Wire Twist Ties 250mm x 1.4mm	3'000
WTT300	Wire Twist Ties 300mm x 1.6mm	3'000

Polythene Sheeting

Flat sheeting on a continuous roll for packaging awkward shaped items and for use as a protective covering. Most widths are centre folded or multi folded on a roll to increase the ease of handling.

Code	Description	Grade	Pallet Qty
PS751550CF	Polythene Sheeting CF 750/1500mm x 150m 125mu	Heavy	20 Rolls
PS102035CF	Polythene Sheeting 1000/2000mm x 125m 87mu	Medium	20 Rolls
PS102072CF	Polythene Sheeting 1000/2000mm x 150m 180mu	Extra Heavy	10 Rolls
PS104025MF	Polythene Sheeting 1000/4000mm x 50m 62mu	Medium	20 Rolls
PS122450CF	Polythene Sheeting CF 1200/2400mm x 90m 125mu	Heavy	20 Rolls
PS204050CF	Polythene Sheeting CF 2000/4000mm x 110m 125mu	Heavy	10 Rolls

Polythene Pallet Covers

Clear Polythene pallet covers in a non shrink LDPE, generally used for covering palletised loads to protect from dust and water during storage.

Code	Description	Pack Qty
NSPC005	Non-Shrink Pallet Cover 750/1250mm x 1375mm 50mu	200
NSPC010	Non-Shrink Pallet Cover 813/1372mm x 1524mm 50mu	200
NSPC015	Non-Shrink Pallet Cover 1000/1800mm x 1975mm 50mu	100
NSPC020	Non-Shrink Pallet Cover 1250/1800mm x 2200mm 75mu	50

Woven Polyprop Sacks

Heavy duty sacks manufactured from woven polypropylene to create a very tough and durable sack for packaging a wide range of heavy and sharp products such as metal parts, waste metal & plastics, aggregates, etc...

Code	Description	Pack Qty
WPPS3045	Woven Polyprop Sack 300mm x 450mm White	1000
WPPS3850	Woven Polyprop Sack 375mm x 500mm White	1000
WPPS4560	Woven Polyprop Sack 450mm x 600mm White	1000
WPPS5075	Woven Polyprop Sack 500mm x 750mm White	1000
WPPS60100	Woven Polyprop Sack 600mm x 1000mm White	1000
IBC909090	Woven Polyprop 1 Tonne Bulk Sack 900mm x 900mm x 900mm	50

Presentation Shrink Films

Presentation shrink film is a high clarity film which can be shrunk around a wide variety of products such as cosmetics, toys & games, electronic media, stationary, books, magazines, medical products, confectionary, etc... This shrink film protects and enhances presentation especially in the retail market and is an ideal point of sale packaging method.

A comprehensive range of systems and material sizes and types are available for a wide selection of applications. Call our Sales Team for expert advice on the best film and shrink system to use for your products.

Presentation Heat Shrink Film Tools & Equipment

A range of tools and equipment for using PVC and Polyolefin heat shrink film. Starter kits are an ideal package for the first time user as they contain everything you need to get up and running with this product.

Code	Description	Pack Qty
IBSSK800	I-Bar Heat Sealer Shrink Starter Kit 800mm	1 Kit
LBSSK300	L-Bar Heat Sealer Shrink Starter Kit 300mm	1 Kit
IBSSK800U	I-Bar Heat Sealer with Film Unroller 800mm	Each
IBSSK800MK	I-Bar Heat Sealer 800mm Maintenance Kit	1 Kit
LBHS300	L-Bar Heat Sealer 300mm	Each
LBHS300MK	L-Bar Heat Sealer 300mm Maintenance Kit	1 Kit
HSAG05	Heat Shrink Hot Air Gun	Each
FUP300	Film Unrolling Platform 300mm	Each
FUP450	Film Unrolling Platform 450mm	Each
FUP600	Film Unrolling Platform 600mm	Each

Presentation Shrink Film Machines

Our new range of Chamber Shrink Wrappers offers the very best in heat shrinking technology. All models seal and shrink in one operation using centre-fold shrink films with very low energy consumption and come with some of the most advanced features possible with electronic controls. The film is kept open around the product loading tray. The operator then easily inserts the product and moves it along with the film to the sealing position and brings down the hood to initiate the sealing process. This is followed by the magnetic hood maintaining the sealing position. Hot air is circulated inside the transparent chamber in the 'hood down' position for excellent sealing around the edge of the package.

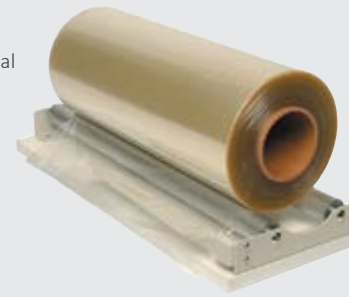

Call our Sales Team for more information on this range of machines.

PVC Shrink Film

The original presentation shrink wrapping material suitable for most presentation applications such as toys, DVD's, & CD's, games, books, etc... Our stock products are all centre-folded to increase ease of handling and usability.

Other thicknesses available on request.

Code	Description	Pack Qty
PVS25CF19	PVC Shrink Film CF 250/500mm x 600m 19mu	1 Roll

PVS80CF19	PVC Shrink Film CF 800/1600mm x 600m 19mu	1 Roll

Polyolefin Shrink Film

High performance presentation shrink film which is fast becoming more popular than PVC as it has less of an impact on the environment, is stronger and more flexible as well as withstanding lower temperatures in the freezer food industries. Polyolefin is not as corrosive as PVC shrink film and does not give off harmful gasses making it a much safer product to work with. It also leaves less residue on sealing equipment reducing machine cleaning and associated down-time.

Other thicknesses available on request.

Code	Description	Pack Qty
POS20CF15	Polyolefin Shrink Film 200/400mm x 1335m 15mu	1 Roll
POS25CF15	Polyolefin Shrink Film 250/500mm x 1335m 15mu	1 Roll
