Megastretchplus - super high performance stretch film.

Special additives in this film give it outstanding performance in stretch memory and puncture resistance making it suitable for the most demanding wrapping applications.

Available in a wide range of grades in both standard core and extended core for hand use or larger rolls for machine use.

With a wide range of colours available to special order and the option for bespoke thicknesses to match your wrapping requirements we can help you cut your palletwrapping costs by supplying a product which perfectly matches your application and avoids wastage.

Get it Custom Printed with your Logo or Message

Blown Film - This film has a cling additive to make one side slightly tacky which helps to make your pallets more stable. It also has a higher puncture resistance and is altogether a stronger film.

Pallet Wrap Dispensers

A range of pallet wrap dispensers for wrapping pallets with choices covering most applications from light to heavy usage.

Code	Description
DPD38	Light Duty Plastic Pallet Wrap Dispenser 38mm core
DPD50	Light Duty Plastic Pallet Wrap Dispenser 50mm core
SR80	Standard Pallet Wrap Dispenser (Yellow)
TMW	Heavy Duty Pallet Wrap Dispenser
BWR4050	Bow Wrapper Pallet Wrap Dispenser (Blue)
HSAV38	Pallet Wrap End Bungs 38mm
HSAV50	Pallet Wrap End Bungs 50mm

Also available for machine use suitable for most standard stretch machines.

e-stretch™

Are you looking for greater pallet stability, lower costs & greater puncture resistance?

E-stretch is a highly developed product using unique manufacturing methods to perfect your wrapping process. High performance blends are used to maximise the strength of the film then the film is optimally stretched using bi-orientating stretch technology to increase the film usage efficiency and reduce the environmental impact. After this the film is released 40% to increase wrapping effectiveness and as this is happening the edges are reinforced using a patented method to provide liner strength and reduce potential edge damage.

E-stretch is being used in growing quantities by many companies as the many benefits are being realised, **call our sales team today for a FREE DEMONSTRATION and trial.**

The E-stretch Benefits:

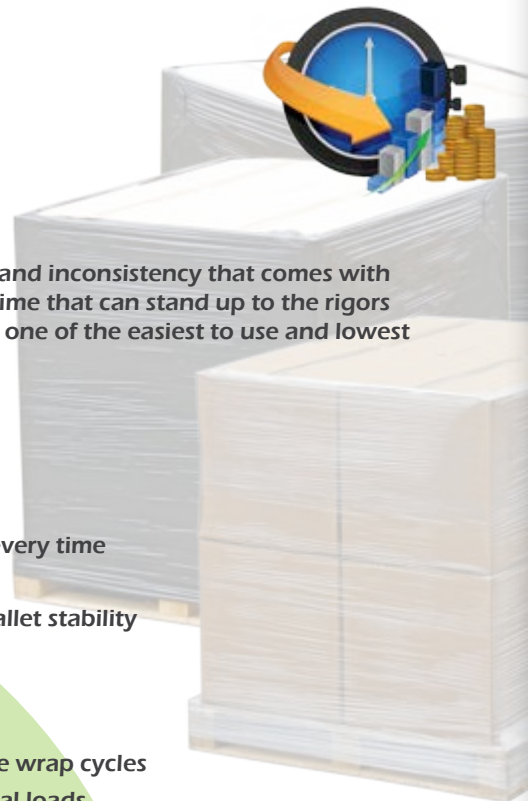

- Minimal stretching required means less energy used to wrap a pallet.
- No neck-down means faster wrapping.
- Reinforced edges provide a strapping effect around the pallet increasing stability.
- Reduced wastage through edge damage.
- Less film used reduces the impact on the environment.
- Higher stretch tension across the width of the film gives a stronger and more rigid pallet.
- Pallets can be wrapped walking forward reducing common Health & Safety Issues.
- Reduced worker fatigue increases efficiency.
- Faster wrapping increases pallet throughput.
- Reduced film usage reduces wrapping costs.

No Neck-Down means faster pallet wrapping and less worker fatigue!!

Consistent and fast, pallet wrapping machines take all the back ache and inconsistency that comes with hand applied film ensuring you get a superbly wrapped pallet every time that can stand up to the rigors of transportation. Cut your man hours and boost your efficiency with one of the easiest to use and lowest cost palletwrapping machines on the market.

BENEFITS

- ✓ Consistent pallet wrapping every time
- ✓ Faster pallet through-put
- ✓ Soft start/stop for safety & pallet stability
- ✓ Improve your pallet stability
- ✓ Improved presentation
- ✓ Eliminate RSI claims
- ✓ Fast setup pre-programmable wrap cycles
- ✓ Manual wrap cycles for special loads
- ✓ Modern technology
- ✓ Reliable construction
- ✓ Fantastic build quality
- ✓ Full UK size turntables
- ✓ Robust motors
- ✓ Simple & effective electronics
- ✓ Plug in and go setup
- ✓ Easy repositioning with forklift
- ✓ Standard stretch option
- ✓ 250% Power PreStretch option
- ✓ Finance options available

Standard Stretch Orbitwrap Turntable Pallet Wrapping Machine

Features:

- **Turntable speed:** 0- 12 rpm
- **Standard mast height:** 2400mm
- **Film:** 500mm x 12mu- 50mu 150% stretch LLDPE
- **Max pallet height:** 2000mm
- **Weight capacity:** 2000kg
- **Turntable size:** 1500mm dia
- **Power:** AC220/110V 1P 50/60Hz 1.0KW
- **Setup:** Requires some simple assembly, plug in to standard socket.
- **GW/NW:** 800kg/750kg
- **Optional extras:**
 - Turntable size: 1650mm & 2000mm dia.
 - Wrapping Height: 1600mm, 2300mm, 2800mm & bespoke.
 - Extras: Ramp, LCD & Magnetic Clutch.

ORBSTD01	Standard Stretch Orbitwrap Palletwrapping Machine

Power PreStretch Orbitwrap Turntable Pallet Wrapping Machine

Features:

- **Turntable speed:** 0- 12 rpm
- **Standard mast height:** 2400mm
- **Film:** 500mm x 15mu- 34mu 250-300% power prestretch LLDPE
- **Max pallet height:** 2000mm
- **Weight capacity:** 2000kg
- **Turntable size:** 1500mm dia
- **Power:** AC220/110V 1P 50/60Hz 1.0KW
- **Setup:** Requires some simple assembly, plug in to standard socket.
- **GW/NW:** 800kg/750kg
- **Optional extras:**
 - Turntable size: 1650mm & 2000mm dia.
 - Wrapping Height: 1600mm, 2300mm, 2800mm & bespoke.
 - Extras: Ramp, LCD & Magnetic Clutch.

Code	Description
ORBPPS01	Power PreStretch Orbitwrap Palletwrapping Machine

Standard Stretch Spinny S140plus & S140advanced Turntable Pallet Wrapping Machine

Features:

- Turntable speed: 5- 12 rpm.
- Standard mast height: 2100mm.
- Film: 500mm x 12mu- 50mu 150% stretch LLDPE.
- Max pallet height: 2100mm.
- Weight capacity: 1200kg.
- Turntable size: 1650mm dia.
- Power: 230V – 240V 50 Hz. single phase.
- Setup: Requires setup in line with instructions supplied.
- Optional extras: Wide range available please call our Sales Team.

Code	Description
S140PLUS	Standard Stretch Spinny S140plus Palletwrapping Machine

Power PreStretch Spinny S300 & S350 Turntable Pallet Wrapping Machine

Features: (in addition to above)

- Pre-programmable Cycles: S300- 5, S350-10.
- Film: 500mm x 15mu- 34mu 200-300% power prestretch LLDPE.
- Wrap Cycle: Separate programming of ascent and descent speed.
- Optional extras: Wide range available please call our Sales Team.

Code	Description
S300	Power PreStretch Spinny S300 Palletwrapping Machine

Power PreStretch Spinny S500 Turntable Pallet Wrapping Machine

Features: (in addition to above)

- Turntable speed: 5- 15 rpm.
- Max pallet height: 2600mm.
- Weight capacity: 2000kg.
- Pre-programmable Cycles: S500-10.
- Operation: 'Easy Touch' touch screen.
- Wrap Cycle: FAST- less than 80 seconds average wrap time, Automatic film clamp and cutting at the end of wrap cycle.
- Optional extras: Wide range available please call our Sales Team.

SPINNY

High Quality Reliable Palletwrapping Machines

When you need extra reliability and wrapping flexibility coupled with exceptional speed your choice is SPINNY. This range is made up of the UK's highest quality wrapping machines and offers 3 year warranty.

An exceptionally high standard of European engineering makes these palletwrapping machines great value for money. Although generally higher initial cost, these machines have been known to exceed 10 years of constant heavy usage with only small wear and tear part replacements. Easy to use and with inbuilt safety features they are by far the smartest choice in the range of palletwrapping machines available.

BENEFITS

- ✓ Consistent pallet wrapping every time
- ✓ Faster pallet through-put
- ✓ Soft start/stop for safety & pallet stability
- ✓ Wide range of optional extras
- ✓ Bespoke machines available
- ✓ Fully automatic wrapping machines
- ✓ Improve your pallet stability
- ✓ Eliminate RSI claims
- ✓ Fast setup pre-programmable wrap cycles
- ✓ Manual wrap cycles for special loads
- ✓ Separate top/bottom wrap settings
- ✓ Rest stop positioning
- ✓ Advanced wrapping technology
- ✓ Reliable Italian engineering
- ✓ Exceptional build quality
- ✓ Simple & effective modular design
- ✓ 3 year warranty

Mobile Wrapping Machines

These fantastic self-propelled robotic wrapping machines are ideal for the busy warehouse that is tight for space. Rather than having a fixed turntable machine you can take these wrappers to the pallet that needs to be wrapped rather than the other way round. They can also be used out in the yard during the day and brought back in again at night further freeing up space and bringing the ease and efficiency of machine pallet wrapping to a space deficient warehouse.

Safety features such as start cycle siren, blinker visible during product wrapping, immediate stop button and emergency bumpers ensure these machines are fully compatible with current health and safety requirements.

There are a range of machine options available such as standard stretch or a range of Power PreStretch options to maximise your film yield, programmable cycles and touch screen display cutting wrapping time and increasing uniform pallet stabilisation.

Door & Window Wrapping Machines

Wrapping machines dedicated to wrapping products such as doors, windows, mirrors, picture frames, etc... We can offer a range of machines which wrap a range of flat products quickly and efficiently. Also available with a bubblewrap or foam sheet dispenser reducing packing time and increasing protection even further.

Machines are also available to wrap larger items such as cabinets, parcels, shelving units, etc...

Horizontal Wrapping & Bundling Machines

The ideal wrapping solution for long lengths such as timber, aluminium extrusions, plastic extrusions and other similar products. The machine wraps the products with film and/or bubblewrap/foam as they are pushed through the machine to give a tightly wrapped and very effectively protected packaging quickly and easily.

Wrapping diameters vary according to size specified and there are a range of machine to suit the level of automation required, from fully automatic to semi-automatic, and your budget.

Specialist Wrapping Machines

Polythene wrapping is one of the most cost effective packaging methods available keeping your products clean and scratch free. We offer a range of wrapping machines to wrap a wide variety of products fast and effectively.

If you need a specialist wrapping machine call our sales team today to discuss your exact requirements.

Finance Options Available

Here at Datec Packaging we recognise that funding and additional budgets can be difficult and time consuming to get authorised so we offer a selection of finance options which mean you can go ahead and experience the benefits of automation immediately by fitting the cost into your current budget.

Consumable Finance Lease: This option takes into consideration the consumables that you will be purchasing, such as stretchfilm, bubblewrap, etc. Prices for the consumables will absorb the machine costs and therefore effectively give you free machine rental.

Finance Lease: Period contracts which spread the cost of the machine over an agreed period. At the end of the period the machine is replaced with a new model giving you peace of mind that you always have an up to date machine which works 100% effectively.

Hire Purchase: The purchase of the machine is spread over a period and at the end of the period the machine is yours to keep.

TENSO

To fit on our mobile and static PP strapping dispensers.

Get it Custom Printed with your Logo or Message

Take a look at our battery powered strapping tools.

Polyprop Strapping on a Plastic Reel

The plastic reel configuration is mainly used in conjunction with our mobile or static strapping dispensers. The plastic sides on the reel stop the strapping falling off the side and becoming tangled.

Code	Description	Breaking Strain	Pack Qty
PR12130	TENSO Polyprop Strapping 12mm x 2300m Plastic Reel	130kg	2 Reels
PR12180	TENSO Polyprop Strapping 12mm x 1800m Plastic Reel	180kg	2 Reels
PR12210	TENSO Polyprop Strapping 12mm x 1600m Plastic Reel	210kg	2 Reels
PR12240	TENSO Polyprop Strapping 12mm x 1500m Plastic Reel	240kg	2 Reels
PR12310	TENSO Polyprop Strapping 12mm x 1300m Plastic Reel	280kg	2 Reels

Polypropylene Strapping is a cost effective strapping solution for most general applications. It offers good breaking strains and maintains good strapping tension during transit.

This strapping is available in a range of core sizes and types for a range of manual and machine applications. TENSO branded strapping is manufactured using a low residue material which prevents the build-up of PP residue on the heat sealing elements, a common problem which results in machine down-time and time consuming cleaning.

Polyprop Strapping on a Cardboard Core

There are a few different cardboard core configurations for use in different machines. Check your machine manual or give our sales team a call to see which core size you will need to fit your machine.

Core Size: 200mm x 190mm

This core size is the most popular and will fit most strapping machines.

Code	Description	Breaking Strain	Pack Qty
MS0560	TENSO Polyprop Machine Strapping 5mm x 6500m	60kg	2 Reels
MS0765	TENSO Polyprop Machine Strapping 7mm x 5000m	65kg	2 Reels
MS0985	TENSO Polyprop Machine Strapping 9mm x 4000m	85kg	2 Reels
MS12130	TENSO Polyprop Machine Strapping 12mm x 3000m	130kg	2 Reels
MS12150	TENSO Polyprop Machine Strapping 12mm x 3000m	150kg	2 Reels
MS12240	TENSO Polyprop Machine Strapping 12mm x 2000m	240kg	2 Reels

For use on most semi-auto and fully auto strapping machines.

Polyprop Sealing Tools

Crimping tools for polyprop strapping. These tools crimp the seal closed around the strapping to provide a strong seal.

Code	Description
SGP12/16	Standard Sealer for use with Standard Seals 12/16mm
PSH12/16	Heavy Duty Sealer for use with Standard Seals 12/16mm
KNS12/16	Standard Sealer for use with Serrated Seals 12/16mm
OFH12/16	Heavy Duty Sealer for use with Serrated Seals 12/16mm

Standard Polyprop Tensioning Tools

A selection of tools for tensioning polyprop strapping in a standard use environments and applications.

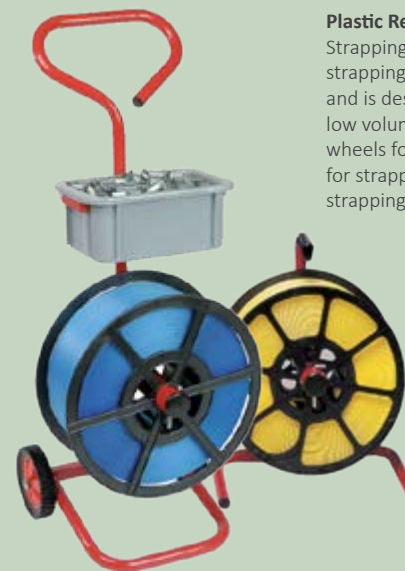

Code	Description
TST30	Standard Polyprop Tensioning Tool 12-16mm
MPT	Compact Polyprop Tensioning Tool 12-16mm

Polyprop Tensioning Tools

A selection of tools for tensioning polyprop strapping in a range of more demanding and specialist environments and applications.

Code	Description
HPT50	Heavy Duty Polyprop Tensioning Tool 12-19mm
PRT12	Bundle Polyprop Tensioning Tool for Round Packs 12mm

Plastic Reel Strapping Dispensers

Strapping dispensers for use with plastic reel strapping. The static model doesn't have wheels and is designed as a budget starter option for low volume users. The mobile dispenser has wheels for easy movement and incorporates a bin for strapping seals and tools keeping the whole strapping kit in one place and easily accessible.

Code	Description
PSD4	Static Dispenser for Plastic Reel Strapping
PD40	Mobile Dispenser for Plastic Reel Strapping

BSK600

The ideal starter kit for occasional use, this kit needs no tools as the strap can be tensioned by hand. If you need higher tension than can be achieved by hand add in a TST30 tool.

Kit Contents:

- 1 x Dispenser Box
- 1 x 600m of 12mm Strapping
- 250 x Standard 12mm Plastic Buckles

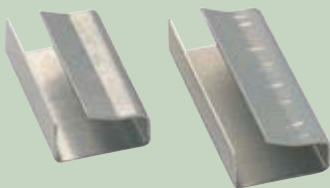

Getting Started??

Use our Starter Kit Offer - Combine any dispenser, strapping tools, seal/buckles and a reel of strapping to get 10% off!!

Standard Seals for Polyprop Strapping

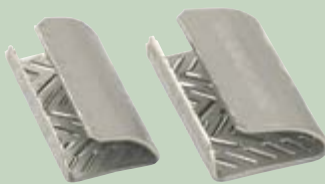

Metal seals are the strongest and most reliable way of joining polyprop strapping, these are used with standard crimping tools and are suitable for most general applications. If you are strapping heavy pallets consider going for a heavy duty seal or upgrade to a serrated seal.

Code	Description	Pack Qty
PPSS10	Standard Polyprop Strapping Seal 10mm	2000
PPSS12	Standard Polyprop Strapping Seal 12mm	2000
PPSS16	Standard Polyprop Strapping Seal 16mm	2000
PPSS12HD	Heavy Duty Polyprop Strapping Seal 12mm	2000
PPSS16HD	Heavy Duty Polyprop Strapping Seal 16mm	2000

Serrated Seals for Polyprop Strapping

Serrated seals have a serrated internal surface which helps to grip the strap and prevent it pulling through when under high tension. If you are strapping heavy pallets or if you have experienced your strapping going slightly slack during transit these seals may be the answer.

Code	Description	Pack Qty
PPSS10SER	Serrated Polyprop Strapping Seal 12mm	1000
PPSS12SER	Serrated Polyprop Strapping Seal 16mm	1000

Plastic Buckles for Polyprop Strapping

Plastic buckles are generally used for low volume and lower tension applications. These buckles can be applied by hand and are a cost-effective alternative to metal seals as they do not need any tools. Do not use these buckles if you need higher tension or if you are strapping heavy pallets.

Code	Description	Pack Qty
PB12	Plastic Polyprop Strapping Buckle 12mm	1000
PB16	Plastic Polyprop Strapping Buckle 16mm	1000

CMP12/16 - Magazine Feed Combination Tool

No fiddling about with seals anymore, boost your productivity, cut your packing time and increase your efficiency with our magazine fed combination tool. This tool is the ultimate time saving manual strap sealing option which saves you both time and money, simple to operate and capable of very high tension levels this is the only option for high volume users. Available for both 12mm and 16mm strap widths.

Code	Description	Pack Qty
CMP12/16	Magazine Feed Combination Tool for PP Strapping	Each
PPSS13MAG	Std Magazine Fed Polyprop Strapping Seal 13mm	2500
PPSS12MAG	H/D Magazine Fed Polyprop Strapping Seal 12mm	2500
PPSS16MAG	H/D Magazine Fed Polyprop Strapping Seal 16mm	2500

Standard Combination Tools for Polyprop Strapping

Are you using strapping regularly?? You can save time and money with our combi tools. These tools have a tensioner and sealer in one tool so you don't have to fiddle around with two separate tools. These tools are only capable of standard tension levels, if you need high tension take a look at the tools below. Available for both 12mm and 16mm strap widths. Both tools use Standard Seals.

Code	Description	Pack Qty
B12	Budget Combination Tool for 12mm PP Strapping	Each
SPC12/16	Standard Combination Tool for 12 or 16mm PP Strapping	Each

High Tension Combination Tools

Combination tools that combine tensioning and sealing in one tool. These tools are capable of high tension levels and will survive in more demanding environments. Available for both 12mm and 16mm strap widths. All high tension combi tools use Serrated Seals.

Code	Description	Pack Qty
LPC12/16	Light Duty HT Combination Tool for PP Strapping	Each
RSK12/16	Medium Duty HT Combination Tool for PP Strapping	Each
SCH12/16	Heavy Duty HT Combination Tool for PP Strapping	Each

Flexible Polyester Strapping

The easy to use, strong and safe alternative to Steel Strapping. Woven and corded polyester strapping are environmentally friendly strapping solutions which offers high breaking strains and corrosion resistant properties. High tension can be applied by hand using hand tools.

Corded Polyester Strapping

HotMelt Strapping - Strands of high strength polyester bonded together by a hot melt casing resulting in a soft edged strapping which is flexible and easy to use. This product is an ideal replacement for steel strapping.

Composite Strapping - Similar to Hot Melt Strapping but coated in a polyester barrier giving a more durable harder edge for sharper and more abrasive applications. Also an ideal replacement for steel strapping.

Code	Description	B/S (kg)	Pack Qty
HMP40	Hot Melt Corded Polyester Strapping 13mm x 1100m	375	2 Rolls
HMP45	Hot Melt Corded Polyester Strapping 13mm x 750m	510	2 Rolls

CPS105	Composite Corded Polyester Strapping 34mm x 400m	1400	1 Roll

Woven Polyester Strapping

Strands of high strength polyester woven together to give a strapping product that is even more flexible and easy to use than corded polyester strapping. This product is an ideal replacement for steel strapping where flexibility is needed and edge damage and strap abrasion is an issue.

Softex Strapping - This is an even softer and more flexible strap for applications where the strap is in direct contact with the product being packaged. Please ask our sales team for more details.

WP50BP	Bale Press Strapping 16mm x 425mtr	4 Rolls

Getting Started??
Use our Starter Kit Offer - Combine any dispenser, strapping tools, seal/buckles and a reel of strapping to get 10% off!!

High Performance Sherardized Metal Buckles

The sherardized coating on our high performance sherardized buckles provides a superior grip, preventing strap slippage and improving weather resistance. Buckles are a great option for straps that tend to go slack due to product migration as they can be easily re-tensioned.

Code	Description	Pack Qty
NSPB13	High Grip sherardized Metal Buckle 13mm	2000
NSPB16	High Grip sherardized Metal Buckle 16mm	2000
NSPB19	High Grip sherardized Metal Buckle 19mm	2000
NSPB25	High Grip sherardized Metal Buckle 25mm	2000
NSPB35	High Grip sherardized Metal Buckle 35mm	2000

Standard Galvanised Metal Buckles

Galvanised buckles are coated to protect from corrosion. Buckles are a great option for straps that tend to go slack due to product migration as they can be easily re-tensioned.

Code	Description	Pack Qty
NSGB13	Standard Galvanised Metal Buckle 13mm	2000
NSGB16	Standard Galvanised Metal Buckle 16mm	2000
NSGB19	Standard Galvanised Metal Buckle 19mm	2000
NSGB25	Standard Galvanised Metal Buckle 25mm	2000
NSGB35	Standard Galvanised Metal Buckle 35mm	2000

Woven Polyester Strapping Tensioners

These are the two most usual tensioners which are used for woven and corded polyester strapping, available for standard and heavy duty applications.

Code	Description	Pack Qty
CST20	Standard Strapping Tensioner for Polyester Strapping up to 19mm	Each
HPT50	Heavy Duty Strapping Tensioner for Polyester Strapping up to 19mm	Each

Woven Polyester Strapping Dispensers

Keep your strapping reels, buckles and tools off the floor and all in one place!! These handy trolleys make it nice and easy to use polyester strapping with a box for your seals and tools.

Code	Description	Pack Qty
CSD3	Static Strapping Dispenser for Woven Polyester Strapping	Each
CSM20	Mobile Strapping Dispenser for Woven Polyester Strapping	Each

Woven Polyester Strapping Tensioners

We also supply a range of tensioners for special uses such as bundling and high tension applications. The QPT has a unique windlass return mechanism for faster and easier strap loading.

Code	Description	Pack Qty
CHD	Heavy Duty Bundling Tensioner for Polyester Strapping up to 25mm	Each
CSM20	Heavy Duty Strapping Tensioner for Polyester Strapping up to 40mm	Each
QPT	Heavy Duty Strapping Tensioner for Polyester Strapping up to 19mm	Each

CSK

The ideal starter kit for occasional use, this kit needs no tools as the strap can be tensioned by hand. If you need higher tension than can be achieved by hand add in a CST20 tool.

Kit Contents:

- 1 x Dispenser Box
- 1 x 500m of 13mm Strapping
- 250 x Standard 12mm Metal Buckles

Pneumatic Woven Polyester Strapping Tensioner

Heavy duty pneumatic tensioner for cord and composite polyester strapping. Ideal for use with heavy duty strap such as 32mm. The PNU32 applies high, uniform tension with ease.

Code	Description	Pack Qty
PNU32	Heavy Duty Pneumatic Strapping Tensioner for Polyester Strapping up to 32mm	Each

Extruded Polyester Strapping

The easy to use, strong and safe alternative to Steel Strapping. Extruded polyester strapping is an environmentally friendly strapping solution which offers high breaking strains and corrosion resistant properties. High tension can be applied by hand using both manual or battery powered tools and by machine for high volume applications.

Get it Custom Printed with your Logo or Message

Extruded polyester strapping is being used in an increasing number of applications and is becoming popular because of its high breaking strains, higher elasticity, conformability and corrosion resistance.

If you are using steel strapping consider swapping over to polyester strapping, it's easier to use and much kinder on your products as well as more flexible and easier for your customer to remove.

Extruded PET Strapping on a 406 x 150mm Cardboard Core

Code	Description	B/S (kg)	Pack Qty
PETS0970E	Extruded Polyester Strapping 9mm x 3000m 0.7mm Embossed	350	1 Roll
PETS1152S	Extruded Polyester Strapping 11mm x 3200m 0.52mm Smooth	225	1 Roll
PETS1260E	Extruded Polyester Strapping 12mm x 2500m 0.6mm Embossed	270	1 Roll
PETS1270E	Extruded Polyester Strapping 12mm x 2000m 0.7mm Embossed	350	1 Roll
PETS1570E	Extruded Polyester Strapping 15mm x 1750m 0.7mm Embossed	440	1 Roll
PETS1585E	Extruded Polyester Strapping 15mm x 1500m 0.85mm Embossed	550	1 Roll
PETS1511E	Extruded Polyester Strapping 15mm x 1000m 1.1mm Embossed	720	1 Roll
PETS1980E	Extruded Polyester Strapping 19mm x 1200m 0.8mm Embossed	660	1 Roll
PETS1910E	Extruded Polyester Strapping 19mm x 1000m 1.0mm Embossed	850	1 Roll

Extruded PET Strapping on a Plastic Reel

Code	Description	B/S (kg)	Pack Qty
PETS1255EPR	Extruded Polyester Strapping 12.5mm x 1600m 0.55mm Embossed	270	1 Roll
PETS1280EPR	Extruded Polyester Strapping 12mm x 1000m 0.80mm Embossed Black	390	1 Roll
PETS1570EPR	Extruded Polyester Strapping 15.5mm x 1200m 0.7mm Embossed	440	1 Roll
PETS1690EPR	Extruded Polyester Strapping 16mm x 750m 0.9mm Embossed Black	580	1 Roll

TVX Battery Powered Hand Strapping Tool

The TVX is an entry level battery powered strapping tool suitable for low to medium usage, but is by no means looked down on by high volume users due to its 3 second tensioning and sealing time- one of the fastest on the market!!
The ergonomic and rugged design assists maximum operator comfort, with minimal effort. Packages such as boxes, pallets, bales and crates can be safely strapped. Strap feeding is extremely simple, with both straps being inserted together. The TVX has an exceptional tension range and applies up to 240kg (2400N) with ease. The flexible sealing mode allows you to choose from semi-automatic or single button fully automatic operation.

Standard Industrial Battery Powered Hand Strapping Tool

The new ZXT1216 18V Li-ion battery-powered strapping tool features some of the most advanced benefits available on the market today. Patented brushless single motor design provides extremely long service life. New 18V 3000mAh high-capacity battery provides increased productivity. Increased tension range of up to 250Kg. Patented strap gripper design for improved tension. Single handed operation. Soft mode for light or fragile packages. Lightest model in its class (3.5 Kg including battery). Pre-programmed touch panel with digital signal to suit different applications. Suitable for polyprop and polyester strapping. Extremely simple strap feed, with both straps being inserted together. Strap is tensioned and sealed and cut quickly and efficiently.

High Performance Signode Battery Powered Hand Strapping Tool

The BXT is the latest generation of battery powered strapping tools. The balanced lightweight design is exceptionally comfortable to use, yet withstands heavy usage in the most demanding applications. Incorporating many advanced features including automatic and semi automatic functions, a new direct drive motor offering an increased tension range and a light setting for polyprop strapping, all controlled via the new digital Touch-Pad controller.

These improved operating features result in a tool that is faster and easier to operate, has better process control, more cycles per battery charge and has low maintenance costs. The new BXT models can also be adapted to use main power with the optional power kit.

High Performance Steel Strapping

High Tensile steel strapping for those heavy duty strapping applications which demand only the best. Our steel strapping comes in ribbon wound where the reel width is as wide as the strap and oscillation wound (mill wound) where the strap is oscillated when wound on to the reel.

When using steel strapping be sure your customers have a steel strap cutter so they can cut the straps you put on!!- An alternative to steel strapping is woven polyester strapping which is much easier to use and your customers can cut it easily with a knife.

Code	Description	Pack Qty
SSRW1250	Steel Strapping Ribbon Wound 13mm x 0.5mm Black	20kg
SSRW1650	Steel Strapping Ribbon Wound 16mm x 0.5mm Black	25kg
SSRW1660	Steel Strapping Ribbon Wound 16mm x 0.6mm Black	25kg
SSRW1950	Steel Strapping Ribbon Wound 19mm x 0.5mm Black	30kg
SSRW1960	Steel Strapping Ribbon Wound 19mm x 0.6mm Black	30kg
SSRW2580	Steel Strapping Ribbon Wound 25mm x 0.8mm Black	50kg
SSRW3280	Steel Strapping Ribbon Wound 32mm x 0.8mm Black	50kg
SSOW1350	Steel Strapping Oscillation Wound 13mm x 0.5mm Black	50kg
SSOW1660	Steel Strapping Oscillation Wound 16mm x 0.6mm Black	50kg
SSOW1960	Steel Strapping Oscillation Wound 19mm x 0.6mm Black	50kg
SSOW1980	Steel Strapping Oscillation Wound 19mm x 0.8mm Black	50kg

Getting Started??
Use our Starter Kit Offer - Combine any dispenser, strapping tools, seal/buckles and a reel of strapping to get 10% off!!

Steel Strapping Dispensers

Keep your strapping reels neat and tidy with our strapping dispensers. Available for both ribbon and oscillation wound reels with a holder for seals and tools.

Code	Description	Pack Qty
SSDRW	Ribbon Wound Steel Strapping Dispenser	Each
SSDOW	Oscillation Wound Steel Strapping Dispenser	Each

Steel Strapping Tensioners

Tensioners for steel strapping to be used in conjunction with sealing tools.

Code	Description	Pack Qty
SSTSTD	Standard Steel Strapping Tensioner up to 19mm	Each
SSTHD19	Heavy Duty Steel Strapping Tensioner up to 19mm	Each
SSTHD32	Heavy Duty Steel Strapping Tensioner up to 32mm	Each
SSTRP19	Bundling Steel Strapping Tensioner up to 19mm	Each
SSTRP32	Bundling Steel Strapping Tensioner up to 32mm	Each

Steel Strapping Sealers for use with Lapover Seals

Seal crimping tools for steel strapping to be used in conjunction with tensioning tools and lapover seals. Side action sealers are much easier to use in a heavy duty applications.

Code	Description	Pack Qty
SSSSA32	Heavy Duty Side Action Sealer Tool up to 32mm	Each
SSSSA19	Single Notch Side Action Sealer Tool up to 19mm	Each
SSSSA32HD	Double Notch Side Action Sealer Tool 19mm- 32mm	Each

Steel Strapping Sealers for use with Snap-on Seals

Seal crimping tools for steel strapping to be used in conjunction with tensioning tools and snap-on seals.

Code	Description	Pack Qty
SSSSTD	Standard Steel Strapping Sealer up to 19mm	Each
SSSHD19	Heavy Duty Steel Strapping Sealer up to 19mm	Each

Steel Strapping Cutters

Safety strapping cutters which cut through steel strapping quickly and easily removing some of the common health and safety issues involved with using steel strapping.

Code	Description	Pack Qty
SSC04	Steel Strapping Cutter for up to 19mm Strapping	Each
SSC06	Steel Strapping Cutter for up to 25mm Strapping	Each
SSC08	Steel Strapping Cutter for up to 32mm Strapping	Each
SSC10	Steel Strapping Cutter for up to 50mm Strapping	Each

Steel Strapping Combination Tools

Save time and money with our combi tools. These tools have a tensioner and sealer in one tool so you don't have to fiddle around with two separate tools. Most steel strapping combi tools are a sealless joint saving you money and time but a stronger seal is achieved if seals are used.

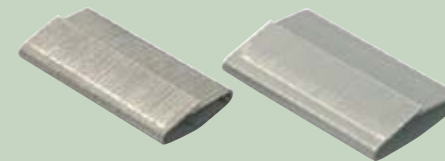

Code	Description	Pack Qty
QST	Steel Strapping Combi Tool for 13mm- 19mm Strapping	Each
OHT	HD Steel Strapping Combi Tool for 13mm- 19mm Strapping	Each
HTS	HT Steel Strapping Combi Tool for 13mm- 19mm Strapping	Each
TLN	TLN Steel Strapping Combi Tool for 13mm- 19mm Strapping	Each
CRP	Round Pack Steel Strapping Combi Tool for 13mm- 19mm Strapping	Each

Pneumatic Steel Strapping Combination Tool

Heavy duty steel strapping sealless combination tool, pneumatic tensioning function for flat pack applications. Uniform strap tension through pre-selection of operating tension. Faster than a conventional sealless tool. Available in 13mm, 16mm and 19mm.

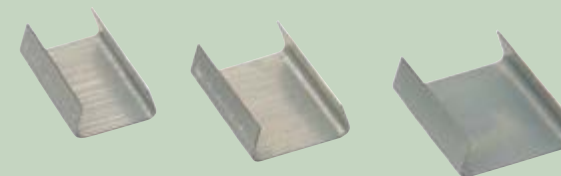

Code	Description	Pack Qty
PTS	Pneumatic Steel Strapping Combi Tool for up to 19mm Strapping	Each

Lapover Steel Strapping Seals

Lapover seals create the strongest seal and are recommended for use when strapping at high tension levels.

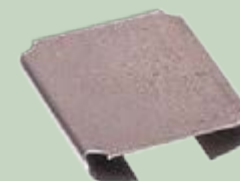

Code	Description	Pack Qty
LOS1325	Standard Lapover Steel Strapping Seals 13mm x 25mm	2000
LOS1625	Standard Lapover Steel Strapping Seals 16mm x 25mm	2000
LOS1925	Standard Lapover Steel Strapping Seals 19mm x 25mm	2000
LOS1957	Heavy Duty Lapover Steel Strapping Seals 19mm x 57mm	1000
LOS2557	Heavy Duty Lapover Steel Strapping Seals 25mm x 57mm	1000
LOS3257	Heavy Duty Lapover Steel Strapping Seals 32mm x 57mm	1000

Snap-On Steel Strapping Seals

Snap-On seals are faster to use as they can be applied after the strap has been tensioned. They clip over the strap rather than having to thread the strap through the seal like the lapover seals above.

Code	Description	Pack Qty
SNOS1325	Snap-on Steel Strapping Seals 13mm x 25mm	2000
SNOS1625	Snap-on Steel Strapping Seals 16mm x 25mm	2000
SNOS1925	Snap-on Steel Strapping Seals 19mm x 25mm	2000

TLN Seals for use with the TLN Combi Tool

TLN seals are a specific seal for use with the popular TLN steel strapping combination tool.

Code	Description	Pack Qty
TLN13	TLN Steel Strapping Seals 13mm	3000
TLN16	TLN Steel Strapping Seals 16mm	3000
TLN19	TLN Steel Strapping Seals 19mm	3000

Strapping Corner Protectors

The perfect choice for protecting your packages from the sharp strapping edges. These plastic corner protectors are designed to stop the strapping cutting into your products during storage and transit. By using these corner protectors you can apply greater tension to your strapping making your packages more secure.

Code	Description	Pack Qty
EPP2525	Small Strapping Edge Protectors up to 19mm Strapping	2000
EPP3535	Small Strapping Edge Protectors up to 30mm Strapping	1000
EPP5555	Small Strapping Edge Protectors up to 50mm Strapping	1000

System 90 - looking for increased pallet stability??

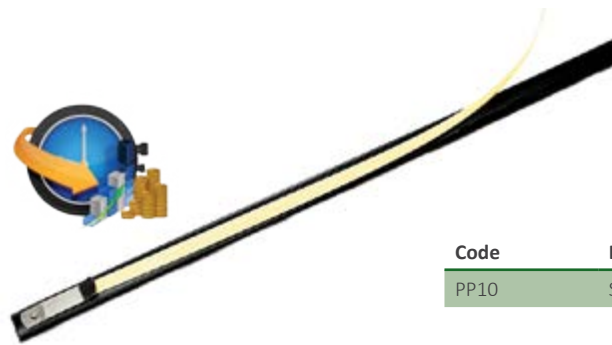

System 90 is a cardboard edge protection product available in a wide range of sizes and materials. Primarily used for pallet stability these edging strips can be used for a wide range of edge protection applications such as furniture protection, display protection and strapping protection.

Specialist Applications:

- **Moisture Resistant:** for use in damp conditions.
- **Channel Strips:** U profile strips for containing lengths of strip or tube products.
- **Plastic Edging:** Water Proof for use in wet conditions.
- **Composite:** for use in damp conditions where weight is an issue.
- **Notched Edging :** Ideal for corners and protecting rounded items.

Code	Description	Pack Qty
S935100	System 90 Edge Protection 35mm x 35mm x 1000mm	50 lengths
S950150	System 90 Edge Protection 50mm x 50mm x 1500mm	50 lengths
S950200	System 90 Edge Protection 50mm x 50mm x 2000mm	50 lengths
S975120	System 90 Edge Protection 75mm x 75mm x 1200mm	50 lengths

Strapping Pallet Probe

Speed up your strapping process and reduce fatigue with these great little pallet probes!! Simply attach the strap to the clip and push the probe through the pallet and 'hey presto' you have your strapping threaded through your pallet in a few seconds and a lot less back ache.

Code	Description	Pack Qty
PP10	Strapping Pallet Probe for PP, PET, Woven PE & Corded PE Strapping	Each

TMS300 Semi-Auto Strapping Machine

The TMS300 is a reliable semi automatic strapping machine. Simple to operate - feed the strapping around the package and the machine automatically tensions and heat seals the strap. Accepts polyprop machine strapping from 6mm - 16mm wide on 200mm or 280mm cores. Designed to provide a quick and efficient method of strapping single or multiple packages of varying sizes. The machine features external tension control, a safety cut-out switch when the top is opened and an enclosed cabinet design that keeps strapping clean and dust free.

XCS550 Semi-Auto Strapping Machine

The XCS550 is the new generation semi automatic strapping machine. Simple to operate - feed the strapping around the package and the machine automatically tensions and heat seals the strap. Designed to provide a quick and efficient method of strapping single or multiple packages of various sizes, the main features of the XCS550 include the 24v low voltage electric system for added safety; quiet, compact mechanical control head - for easy maintenance; electronic tension control and sensor controlled heater for easy and efficient operation.

Systempac Semi-Auto Strapping Machine

An entry level semi-auto strapping machine with a high speed tensioning and sealing cycle. fully adjustable tension and seal heat levels make this machine very flexible and suitable for a wide range of environments and applications. Easily accessible strapping reel makes changing the reel very quick and easy and the solid construction gives this machine the ability to withstand heavy usage.

TRS600 Auto Strapping Machine

The TRS600 Automatic machine is designed for strapping high volumes of cartons and packages. Simply place the pack under the arch - at the press of a button the machine automatically straps the pack. The TRS600 is capable of up to 27 straps per minute providing an efficient solution to your strapping needs. The main features are external tension control to suit pack application and a short feed sensor to prevent mis-feeds. A range of arch sizes are available to suit your application.

AFS900 EVOLVE Auto Strapping Machine

The AFS900 Evolve automatic strapping machine is one of the most advanced in its class. Based on the TRS600 design and incorporating features such as auto strap feed for easy strap loading, short feed sensor and re-feed function to reduce mis-feeds, electronic tension control for quick and simple tension adjustment and auto loop ejector to eliminate down time.

Short Feed Sensor - This sensor will detect whether the strap is at sealing position. If it is not, the start switch cannot be activated.

Auto Strap Re-feed - The machine will automatically re-feed itself if a mis-strap occurs.

Strap End Ejector - End of strap sensor ejects end of coil and prepares for next coil of strap.

HQS50 Fastrac High Speed Auto Strapping Machine

The HQS50 is a world class, innovative, high speed strapping machine - engineered and developed in Europe. The HQS50 is capable of up to 50 straps per minute and is designed for users such as print finishers, corrugated industry, news printers and applications where efficiency is paramount. Features such as one piece strap chute, loop ejector, auto strap feed, compact mechanical head and sensor controlled heater are just some of the features found on the HQS50 Fastrac machine.

HQS80 Fastrac High Speed Auto Strapping Machine

Engineered and developed in Europe, the HQS80 is capable of up to 65 straps per minute and is designed for users such as print finishers, corrugated industry, news printers and applications where efficiency is paramount. Features such as the one piece strap chute, auto strap ejector, centre control heater, adjustable table height, integral front foot bar switch and waist height auto strap feeding are just some of the exciting new features found on the new HQS80 Fastrac machine.

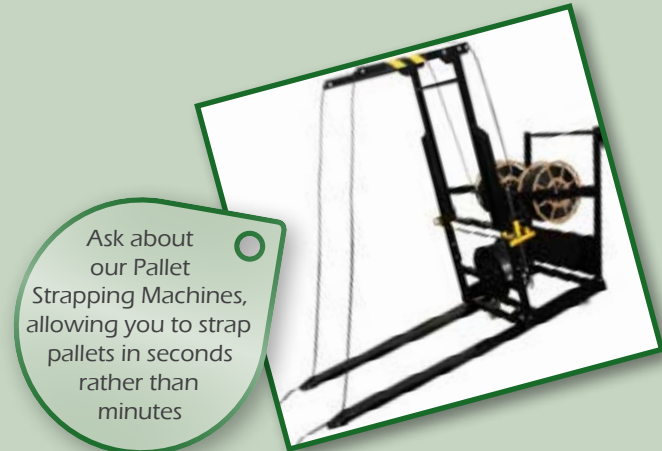

Fast Track HQS80 is an innovative, world class, high speed automatic strapping machine. It's equipped with all industries standard features and several operator user friendly designs. The HQS80 offers the most optimal performance, high speed, easiest maintenance and the most cost effective solution in its class today. Available for 5mm, 6mm, 9mm and 12mm strap sizes and also a variety of arch sizes.

Specialist Strapping Machines

Specialist strapping machines are available for a wide range of applications, low level strapping machines, pallet strappers, stainless steel wash-down strapping machines for food use, bespoke arch sizes and other configurations are amongst the wide selection of specialist strapping applications that we cater for.

Do you need a strapping machine to do a specific special job??
Give our sales team a call today to discuss your requirements and find you the right solution.

Megatop Pallet Top Sheets

Polythene pallet top sheets for covering and protecting the tops of pallets. Creates a water-tight cover over your products to protect against water damage.

Code	Description	Pack Qty
MEG1816C	Megatop Pallet Top Sheet 900/1800 x 1600 MD18	250/Roll
MEG1816B	Megatop Pallet Top Sheet 900/1800 x 1600 Black LD30	250/Roll
MEG1315C	Megatop Pallet Top Sheet 1300 x 1500 MD18	500/Roll
MEG1715C	Megatop Pallet Top Sheet 850/1700 x 1500 LD30	250/Roll

Anti-Slip Pallet Layer Sheets

The perfect solution to unstable pallets, these paper sheets are coated with an anti-slip coating providing increased pallet stability up to an angle of 45°!! Use less strapping or stretchfilm and increase your pallet stability in transit with this simple solution.

The Benefits:

- Stabilise pallet loads of sacks, bags and cartons
- Reduction of secondary packaging, such as stretchfilm & strapping
- Efficient on all materials- paper, corrugated, cartons, glass and plastic packing
- Water repellent, ideal for preventing moisture damage
- High performance- effective up to angles of 45°
- 100% recyclable
- Unique anti-slip coating

Code	Description	Pack Qty
ASS8012STD	Anti-Slip Layer Sheets 800mm x 1200mm 100gsm	200 shts
ASS1012STD	Anti-Slip Layer Sheets 1000mm x 1200mm 100gsm	200 shts

Plastic Pallets

A range of robust, durable plastic pallets that offer a highly cost effective option with a much greater life expectancy than wood. Perfect for the Fresh Produce, IT, Engineering and Pharmaceutical business sectors where hygiene and clean working environments are essential.

Code	Description	Pack Qty
PP8060STD	Standard Grade Plastic Pallet 800mm x 600mm	10
PP1280STD	Standard Grade Plastic Pallet 1200mm x 800mm	10
PP1210STD	Standard Grade Plastic Pallet 1200mm x 1000mm	10
PP1210HD	Heavy Duty Grade Plastic Pallet 1200mm x 1000mm	10

Pallet Cardboard Layer Pads

Cardboard layer pads for interleaving between palletized goods offering enhanced protection during transit. This product also greatly helps to increase pallet stability as it produces 'ties' between products on a pallet. Manufactured using double faced corrugated board they are 100% recycled and 100% recyclable.

Code	Description	Pallet Qty
PLS05	Cardboard Layer Pads 395mm x 595mm	1600
PLS10	Cardboard Layer Pads 595mm x 795mm	800
PLS15	Cardboard Layer Pads 780mm x 1180mm	400
PLS20	Cardboard Layer Pads 980mm x 1180mm	400

Presswood Pallets

The ultimate pallet offering nestable design, solid one-piece construction with no nails or screws and ISPM15 accredited. As a result these pallets offer a space saving, injury and damage reducing, exportable pallet that are recognised world wide as being the ultimate pallet. The rounded corners also save time when applying stretchfilm helping to cut the amount of tears and splits during wrapping.

Code	Description	Pack Qty
PWP6040	Presswood Pallet 600mm x 400mm	10
PWP8060	Presswood Pallet 800mm x 600mm	10
PWP1280	Presswood Pallet 1200mm x 800mm	10
PWP1210	Presswood Pallet 1200mm x 1000mm	10
PWP1111	Presswood Pallet 1140mm x 1140mm	10

Polythene Heat Shrink Systems

When you need high pallet stability and/or flexible conformability consider our range of polythene heat shrink systems. Ideal for packaging a range of awkward shaped items protecting from abrasion and scratching. Polythene heat shrink systems also are a very high performance pallet stability product considerably increasing pallet rigidity and security. Also protects from water damage as this product is water proof and produces a completely sealed package when applied correctly.

Polythene Heat Shrink Sheeting

Flat sheeting on a continuous roll for packaging parcels and awkward shaped items. Most widths are centre folded or multi folded on a roll to increase the ease of handling. Cut the required length of film open the film out and wrap loosely around your products then use a heat gun to shrink the film tightly around your products.

Code	Description	Grade	Pallet Qty
PS751550CF	Polythene Sheeting CF 750/1500mm x 150m 125mu Heatshrink	Heavy	20 Rolls
PS102035CF	Polythene Sheeting 1000/2000mm x 125m 87mu Heatshrink	Medium	20 Rolls
PS102072CF	Polythene Sheeting 1000/2000mm x 150m 180mu Heatshrink	Extra Heavy	10 Rolls
PS104025MF	Polythene Sheeting 1000/4000mm x 50m 62mu Heatshrink	Medium	20 Rolls
PS122450CF	Polythene Sheeting CF 1200/2400mm x 90m 125mu Heatshrink	Heavy	20 Rolls
PS204050CF	Polythene Sheeting CF 2000/4000mm x 110m 125mu Heatshrink	Heavy	10 Rolls

Polythene Heat Shrink Pallet Covers

Covers designed specifically for covering pallets but also can be used for a variety of other items. These pallet covers are perforated on a roll, tear a cover off pull over a pallet then use a heat gun to shrink the film tightly around your pallet creating a secure waterproof barrier.

Code	Description	Pack Qty	Pallet Qty
PC19EURO	Pallet Shrink Hoods 1300/2150mm x 1850mm 125mu	30/Roll	20 Rolls
PC15STD	Pallet Shrink Hoods 1270/2340mm x 1500mm 125mu	30/Roll	20 Rolls
PC20STD	Pallet Shrink Hoods 1300/2350mm x 1950mm 125mu	30/Roll	20 Rolls
PC20STD	Pallet Shrink Hoods 1300/2550mm x 2050mm 125mu	25/Roll	20 Rolls
PC21STD	Pallet Shrink Hoods 1300mm/2400mm x 2100mm 125mu	30/Roll	20 Rolls

VariCover System - Polythene Heat Shrink Tubing

The perfect solution if you are shipping out various pallet heights, with VariCover you can make your own bag length quickly and easily. The VariCover dispenser has a sealer bar and cutter so just pull out the required length of film, seal and cut to make your own bespoke pallet covers and bags.

Code	Description	Grade	Pallet Qty
VC22550	VariCover Heat Shrink Tubing 1250/2250mm 125mu	Heavy	20 Rolls
VC23080	VariCover Heat Shrink Tubing 1200/2300mm 200mu	Extra Heavy	20 Rolls

Patented Cold Nozzle technology makes the Ripack guns safer to use

Heat Gun Kits and Accessories

Heat Gun Kits and Accessories for heat shrinking polythene sheeting and pallet covers.

Ripack 2200 - Light and easy to handle, fatigue free and fast working, the rotating nozzle and swivel gas connection prevent the hose twisting and enhance operator performance.

Ripack 3000 - 15% faster due to high heat output, more comfort from improved handle grip, large suspension ring for attaching the gun to a retractable tool balance and a spare igniter is now stored in the handle and can be replaced without tools in less than a minute!! Also comes complete in a carrying case serving as a stable footboard capable of elevating an operator of 120kg by 27cm.

Code	Description
GSG100	Standard Gas Heat Shrink Gun Kit
RP2200	Ripack 2200 Propane Gas Shrink System
RP3000	Ripack 3000 Propane Gas Shrink System
GBT	Gas Bottle Trolley and Shrink Gun Holder

Our Ripack 3000 gun is 15% faster!!

Our Ripack 3000 gun comes with a carry case and hop-up!!
