CLNS5066V	Clear Solvent L/Noise Vibac Tape 50mm x 66m	36 Rolls

Our Range of Case Tapers

We offer a full range of case taping machines for a wide selection of applications. Whether you need speed, size or specialist accessories we have the right machine for you at the right price. All our machines are built to a high quality, rugged proven design and meet CE392 machine directives.

These are the main two types of fully automatic case tapers that are available.

Uniform Size Case Taper

A Uniform Case Taper provides safe and effective sealing of the top and bottom of uniform sized cartons simultaneously. These are faster machines as they do not have to change to accommodate different sized cartons. If you are taping a high volume of identical sized cartons this is the machine for you.

Random Size Case Taper

A Random Case Taper provides safe and effective sealing of the top and bottom of a run of random sized cartons. These machines have sensors which measure the carton and change to accommodate the various different sizes. If you are taping a range of different sized cartons you need to consider going for this machine.

Have you seen our range of coloured machine tape?

Ask to see our demo videos. See how they work first hand.

Machine Applied Packaging Tape

A range of premium tape products in large rolls for smooth and hassle free machine application.

TIP: Why not ask about our extra long 1500m rolls - cutting your roll change over time by 34%!!

Bespoke Custom Printing Available

Bespoke Printed Tape

Bespoke printed tape is a low cost opportunity to quickly and easily brand your parcels and pallets. Get a special message across, advertise your brand or just use it for internal identification.

We supply a range of quality options which can be printed up to four colours on a choice of backing colours.

Choose E-tape for cost savings and increased efficiency, E-tape is more cost effective due to its longer reel length and it saves you roll changes and storage space.

Vinyl Packaging Tape

High quality vinyl backing with a solvent adhesive, this product is the preferred choice for printed tape as it is strong and sticky.

Available in: Clear, Buff or White | Printed: 1, 2, 3 or 4 Colours.

Take a look at our hand and desk tape dispensers

Are you looking for a more environmentally friendly carton sealing solution that reduces the risk of pilferage during storage and transit?

Then Gummed Paper Tape is the Natural Answer...

Some of the Advantages:

An Integral Closure

The water activated adhesive in Gummed Paper Tape penetrates into the fibres of the carton creating a total bond.

Tamper Evidence

Gummed Paper Tape cannot be removed from the carton without leaving traces of damage unlike standard packaging tapes which can be removed without a visible trace. Hence Gummed Paper Tape offers clearly visible proof if a packaging's seal has been tampered with.

100% Recyclability

Gummed Paper Tape is made from renewable natural resources which makes recycling easier. Packaging research associations have all accredited Gummed Paper Tape recyclable making it the environmentally friendly choice for the packaging professional.

Temperature Tolerant

Even in extreme temperature variations the characteristics of Gummed Paper Tape remain constant. In extreme heat, humidity and cold the seal retains its strength whilst the seal also remains highly resistant to aging as well making it the ideal seal solution for long term storage.

It's too easy to do. Secure your parcels with the Paper Tape Solution!!

Bespoke printed Gummed Paper Tape available to order, speak to our sales team

Gummed Paper Tape

Standard grade 60gsm gummed paper tape with gum side in or gum side out.

High Performance Multipurpose Tape

The ULTIMATE multipurpose tape, designed to perform on all substrates found on a building site and a must for contractors and maintenance crews in all industries. The polythene tape is very strong, waterproof and visible. This is the essential repair and sealing tape and unlike PVC it won't go brittle in cold weather. Unique serrated edges give the tape a clean easy tear property!
