Airsafe - your first choice for a complete bubblewrap range.

Airsafe is a truly flexible brand of bubblewrap. By combining a range of different manufacturing methods we can bring you a range that covers every application we have ever come across in all our years of supplying this product.

Whether it be high performance burst resistant, self adhesive, fire retardant, anti-static or just an economical wrapping product we are confident we have the product you need.

Bespoke widths available, speak to our sales team

Airsafe Premium - A Better Bubble...

Bringing you one of the highest quality bubblewrap products on the market, with a fuller bubble and tearable film you can increase your efficiency by using less and spending less time wrapping.

Nylon Air Barrier: Locks the air into each bubble for a longer lasting bubblewrap.

Easy Tear Additive: Our airsafe premium bubblewrap can be torn by hand across the roll without the need for a knife - great for pleasing those HSE officials!!

Fuller Bubble: A taller, fuller bubble means you don't have to use as much bubblewrap for the same protection levels.

30mm Extra Large Bubble: A good solution for clean dustless voidfilling.

Bubblewrap Specials...

We offer a wide range of special bubblewrap options for specialised applications in industries such as automotive, removal, exhibition & display, construction, agricultural, etc...

All the products below are available as special order items in a wide range of bubble sizes and roll widths, options can also be combined to cover your particular need.

Does it all seem a bit confusing?

Not sure exactly which option to go for?

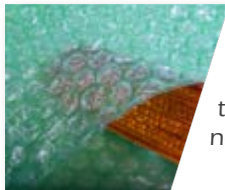

Speak to our Sales Team today, we can help you decide and suggest the best options for your particular application.

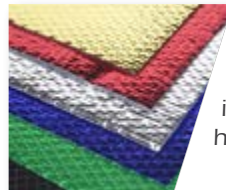

Anti-Static Bubblewrap:
For protecting sensitive electronics where ESD is essential.

Perforated Bubblewrap:
Get your bubblewrap bespoke perforated to set lengths to increase your throughput and decrease packing time.

Bio-Degradable Bubblewrap:
By using a cereal starch based plastic this product will rot over time leaving no residue in landfill sites.

Coloured Bubblewrap:
Bubblewrap using coloured film is ideal for brand identification or hazard warning.

Laminated Bubblewrap:
We can supply bubblewrap laminated to a range of products such as PE film, PP film & cushion foam for use in specialist applications.

Double Laminated Bubblewrap:
If you need extra special protection we have a double laminated option with two layers of bubblewrap inside a polythene barrier.

Self-Adhesive Bubblewrap:
Ideal for specialist applications where bubblewrap needs to be stuck to your products, the wrap will peel off leaving no residue.

Flame Retardant Bubblewrap:
For use in construction as a flame retardant barrier or as a insulation product, also useful for use in export.

UV Stabilised Bubblewrap:
For applications where the wrap is exposed to UV sources, this product will not breakdown under the influence of UV rays.

Bespoke Printed Bubblewrap:
Now your bubblewrap can advertise your brand, a great opportunity to increase brand awareness and image.

Airsafe Standard - This is our standard range of bubblewrap offering one of the most economical wrapping products on the market. This product is available in widths right up to an amazing 3000mm wide!

Available from stock in Small 10mm bubble & Large 25mm bubble.

Available in widths up to 3000mm!!

Bubblewrap is available in bags and dispenser boxed.

protective packaging

Protective foam products that don't mark painted surfaces or cause dulling of highly polished finishes.

Widely used as a protective material for guarding against scuffs, scratches and dents on a wide variety of items. Closed cell PE Foam is available in thick sheets for block and brace, lining of containers and floor protection.

Ideal for use in export due to its superior weight supporting qualities and waterproof composition this product can be bespoke made to a range of shapes and sizes for bespoke fittings and trays.

Speak to our sales team about our bespoke formed & sheet options

Procell PE Foam Surface Protection

PE Foam extruded in a sheet for wrapping products or interleaving between items in a package, this product is ideal for painted surfaces as it doesn't mark polished or painted surfaces.

Glass Edge Profile Protection Foam

PE Foam extruded in a special profile for protecting the edges of glass and other thin sheet materials.

Code	Description	Pack Qty
FGEMED	Glass Edge Profile Protection Foam 33mm x 26mm x 2000mm 3mm	460m

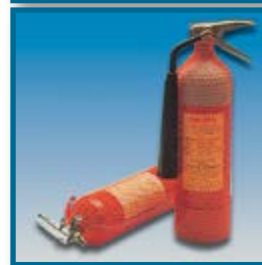

Protective Net Slewing

Protective Slewing provides a practical, efficient and cost-effective solution to the problems of surface damage to components during manufacture, storage and transit. Available in a range of colour coded sizes, the mesh is flexible enough to mould around irregularly-shaped items, protecting them from knocks and scratches. Unlike traditional materials such as wax paper, it can be used again and again. Manufactured from low density polyethylene in a tubular form in diameters ranging from 5mm to 300mm, Protective Slewing is resistant to acids and solvents and is unaffected by oils and greases, making it ideal for protecting machined parts in an engineering environment. Other applications include bottle slewing and protection of damage-prone items such as ceramics, glass, window furniture and furniture legs.

Protective Net Slewing

Code	Description	Pack Qty
NS05	Protective Net Slewing 7mm- 15mm x 200m Clear	4 Rolls

PKR1157	MaxKraft Pure Ribbed Kraft Paper 1150mm x 285m 70gsm	1 Roll

Industrial Protective Papers

A wide range of papers aimed at metal industries and other corrosion sensitive products. These papers are designed to protect heavy and corrosion prone products effectively and cost efficiently. For more information on the best product to use call our sales team on 02476 611234.

Waxed Kraft Paper

Pure kraft paper coated in an oil and grease resistant wax coating for wrapping and protecting a wide range of industrial and automotive products. Ideal for oily items and protecting products from direct water damage.

Code	Description	Pack Qty
WK55	Waxed Kraft Paper 900mm x 200m 55gsm	1 Roll
WK65	Waxed Kraft Paper 900mm x 200m 65gsm	1 Roll

VCI Anti-Rust Paper

Pure kraft paper infused with a volatile corrosion inhibitor which absorbs moisture in the package preventing the corrosion of ferrous metals during transit or storage. For VCI to work effectively the package must be sealed, ask our sales team for more information on maximising the effectiveness of our VCI paper.

Code	Description	Pack Qty
VCI9020	MaxKraft VCI Anti-Rust Paper 900mm x 200m 55gsm	1 Roll
VCI10020	Heavy Duty VCI Anti-Rust Paper 1000mm x 200m 100gsm	1 Roll

Kraft Union Waterproof Paper

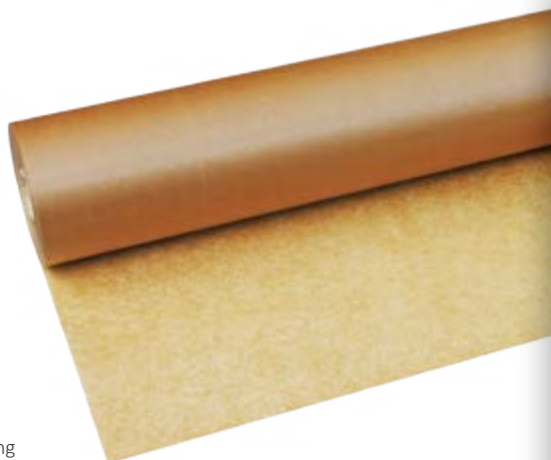

With a layer of Bitumen between two layer of kraft paper this paper is ideal for use as a moisture and water proof barrier for your products. Often used as a lining for packing cases and crates and as a waterproof wrapping for a wide range of items. Also available to order in a heavy duty 165gsm paper.

Code	Description	Pack Qty
KU901012	Kraft Union Paper 900mm x 100m 120gsm	1 Roll
KU121012	Kraft Union Paper 1200mm x 100m 120gsm	1 Roll
KU901016	Kraft Union Paper 900mm x 100m 165gsm	1 Roll
KU121016	Kraft Union Paper 1200mm x 100m 165gsm	1 Roll

Globular Embossed Paper

Embossed paper for extra padding and protection, ideal for heavy metal items in need of extra cushioning.

Code	Description	Pack Qty
GEP850	Globular Embossed Paper 850mm x 75m	1 Roll

V.C.I
maxkraft

Why not get wax, VCI or Kraft Union papers cut to a specific sheet size to fit your products

Protective Paper Bags

The time-saving alternative to wrapping your products in paper, just open a bag and pop the product inside!! These are also used for packaging small items such as confectionery, greeting cards and other small retail items.

Code	Description	Pack Qty
BKPB070939	Brown Kraft Paper Bag 175mm x 230mm 37gsm	1000

IBSSK800MK	I-Bar Heat Sealer 800mm Maintenance Kit	Each
LBHS300	L-Bar Heat Sealer 300mm	Each
LBHS300MK	L-Bar Heat Sealer 300mm Maintenance Kit	1 Kit
HSHAG05	Heat Shrink Hot Air Gun	Each
FUP300	Film Unrolling Platform 300mm	Each
FUP450	Film Unrolling Platform 450mm	1 Roll
FUP600	Film Unrolling Platform 600mm	1 Roll

Presentation Shrink Film Machines

Our new range of Chamber Shrink Wrappers offers the very best in heat shrinking technology. All models seal and shrink in one operation using centre-fold shrink films with very low energy consumption and come with some of the most advanced features possible with electronic controls. The film is kept open around the product loading tray. The operator then easily inserts the product and moves it along with the film to the sealing position and brings down the hood to initiate the sealing process. This is followed by the magnetic hood maintaining the sealing position. Hot air is circulated inside the transparent chamber in the 'hood down' position for excellent sealing around the edge of the package.

Call our Sales Team for more information on this range of machines.

PVC Shrink Film

The original presentation shrink wrapping material suitable for most presentation applications such as toys, DVD's, & CD's, games, books, etc... Our stock products are all centre-folded to increase ease of handling and usability.

PVS80CF19	PVC Shrink Film CF 800/1600mm x 600m 19mu	1 Roll

Polyolefin Shrink Film

High performance presentation shrink film which is fast becoming more popular than PVC as it has less of an impact on the environment, is stronger and more flexible as well as withstanding lower temperatures in the freezer food industries. Polyolefin is not as corrosive as PVC shrink film and does not give off harmful gasses making it a much safer product to work with. It also leaves less residue on sealing equipment reducing machine cleaning and associated down-time.

Other thicknesses available on request.

POS60CF15	Polyolefin Shrink Film 600/1200mm x 1335m 15mu	1 Roll
POS70CF15	Polyolefin Shrink Film 700/1400mm x 1335m 15mu	1 Roll

Airtech - flexible air pillow voidfill solutions.

The preferred choice of void filling for a wide range of applications, air pillows are clean, fast, light and completely dust free. They can be reused over and over again and reduced to a fraction of their size for disposal making them a great environmentally friendly solution.

Available in a wide range of film types and pillow configurations this product is cost effective and space saving with one roll producing up to an equivalent of 15 bags of loosefill.

The AIRtech Machine Range

In the AIRtech range we offer a selection of machine variants that cover a comprehensive range of applications and range in speed from 40ft/m to 75ft/m. With adjustable air pressure, seal temperature and speed these machines offer flexibility that allows you to adjust the settings to get a perfect pillow for your package.

With our range of integration and bulk storage options we can create a range of options that cover speed, flexibility and ease of use. From initial planning, engineering and installation we can offer a fully integrated package that can transform your packing process and increase productivity and throughput.

Airtech Cushion Film:

This film is a 16 cell pad which is commonly used as block & brace and wrapping product for delicate items and items prone to migration during transit.

Airtech Voidfill Film:

Air pillows used for block & brace and void filling of non-delicate items. Available in a range of pillow sizes and widths ideal for a range of users from small to large volumes.

Airtech Bubble Film:

A film that is similar to a very heavy duty large bubblewrap, this option is often used for wrapping delicate items and is also useful as a layer pad between layers of products.

Anti-Static ESD Film:

The anti-static option manufactured from statically conductive plastic for packaging sensitive electronics such as computers, circuit boards, micro chips, etc...

Bio-Degradable Film:

A truly Bio-Degradable film type based on polylactic acid with copolyester giving a film that completely decomposes to ASTM 6400 and the European norm DIN EN 13432.

PAPERtech Paper Cushioning Systems

Dependable paper crumpling systems that transform a roll of paper into a lightweight protective packaging material for a wide range of applications. Also an ultimately environmentally friendly option offering 100% recycled, 100% Bio-Degradable, 100% reusable and 100% recyclable material!!

The PAPERtech range offers flexibility with three paper crumpling options and five machine variants to cover your particular application. Also available are a range of add-ons to increase efficiency and allowing us to tailor the product to your needs.

The PAPERtech Machine Range

PAPERtech 550

High speed voidfill crumpled paper for light duty and volume filling applications. The PAPERtech 550 machine will dispense paper up to an amazing 100m per minute!! This system uses a unique pulling system which helps to volumise the paper giving you a high speed and cost-effective recyclable void filling solution.

PAPERtech 750

A unique patented crumbling system which combines paper and air giving one of the highest strength & yield ratios in the paper voidfill market. The special pleating technology creates a flexible and lightweight tube giving you maximum fill using less paper. You will use less, your packages will be lighter saving you money in two areas.

PAPERtech 950

The original paper voidfill system offering high performance, flexibility and strength, these paper pads can be used for cushioning, voidfill, block & brace, and wrapping. With a choice of paper weights and options the 950 solution offers on-demand protective packaging for a wide range of applications and is specially favoured for heavy and awkward items due to its superior weight supporting properties.

FOAMplus

FOAMplus Packaging Foam Systems

High performance on-demand foam packaging which expands up to 27 times its original size. Foamplus delivers cost effective superior protection for your products and offers increased product presentation to your customers.

Very simple in operation, these systems mix and dispense a two part liquid which quickly expands to mould tightly around your products providing support, crush resistance, load stability and impact protection for the heaviest of items.

The Benefits of FOAMplus:

- Extremely impact resistant offering superior protection
- Specially developed foam uses up to 45% less material than alternative systems
- High speed delivery reduces packing time
- Very Robust even when used for sharp, heavy and awkward items
- Perfect contour moulding gives individually bespoke packaging every time
- This product can be used as block & brace, cushion or voidfill making it a very versatile protective solution.
- Packaging is made on demand saving on space and convenience
 - Nil product migration during transit
 - Multi-surface support for very fragile items
 - Pre-moulded fittings for increased efficiency

Increase your packing flexibility with our Hand Packer Systems

The FOAMplus Machine Range

Hand Packer Foam in Place Systems

Hand packing system for larger items this system offer greater flexibility in Foam in Place systems, electronic software based controls consistently regulate the foam mix providing consistently high quality packaging. Low maintenance technology and self cleaning mixing chamber offers lower maintenance time and associated costs.

Bag Packer Foam in Place Systems

On demand foam packaging dispensed into a bag for increased speed and efficiency. This machine dispenses a variable quantity of foam into a range of different sized bags giving the operator a range of pre-programmed options to choose from dependant on the item being packed and finish with the perfect package. This system can produce up to 23 foam filled bags per minute.

Mini Packer Foam in Place Systems

The perfect solution for the low volume user, this machine dispenses the liquid foam into a bag which is inserted into the machine. With four bag sizes and five pre-set filling quantities this offers flexibility and choice at a rate of up to 13 pads per minute.

Dramatically speed up your packing time with our Bag Packer Systems

Instapak Expanding Foam Cushions

Expanding Foam in pre-made cushions without the need for a machine!! These foam bags are supplied flat and they expand to mould around the product to be packaged. To use, just apply pressure to the 'press here' panel on the foam bags and gently pat to activate the expanding foam. Place the expanding foam filled bag in the shipping or cardboard box and nestle the product into the foam cushion. As the foam sets, it moulds around the product providing an exact foam packaging fit. (other sizes available to order).

Code	Description	Pack Qty
IPFC010	Instapak Protective Foam Cushions 380mm x 460mm	48
IPFC020	Instapak Protective Foam Cushions 460mm x 460mm	42
IPFC040	Instapak Protective Foam Cushions 460mm x 610mm	30
IPFC100	Instapak Protective Foam Cushions 640mm x 690mm	24

Transit Packaging Warning Labels

A range of despatch labels with various warning text and icons. Suitable for use with a range of parcels and pallets. For more options and label sizes please see our miscellaneous packaging section.

Code	Description	Pack Qty
WMLD05	Wall Mounted Label Dispenser	Each
TMLD10	Bench Label Dispenser	Each
VL108FR	Vinyl Parcel Labels 108mm x 79mm 'FRAGILE'	500/Roll
VL108HA	Vinyl Parcel Labels 108mm x 79mm 'HANDLE WITH CARE'	500/Roll
VL108ST	Vinyl Parcel Labels 108mm x 79mm 'DOT NOT STACK'	500/Roll
VL108TH	Vinyl Parcel Labels 108mm x 79mm 'THIS WAY UP'	500/Roll

Other label designs in our Miscellaneous section.

Expanding Corner Protectors

Excellent impact protection for the corners of products such as table tops, picture frames, doors, etc... These corner protectors can expand to fit around a range of thickness.

Code	Description	Pack Qty
CPXS	Small Expanding Corner Protectors 3mm-7mm Black	250
CPXM	Medium Expanding Corner Protector 14mm-40mm Black	1000
CPXL	Large Expanding Corner Protector 40mm-70mm Black	2000

Plastic Edge Protectors

The perfect choice for protecting your packages from sharp strapping edges. These plastic corner protectors are designed to stop the strapping cutting into your products during storage and transit.

Code	Description	Pack Qty
EPP2525	Plastic Edge Protector 33mm x 25mm	2000
EPP3535	Plastic Edge Protector 40mm x 35mm	1000
EPP5555	Small Strapping Edge Protectors up to 50mm Strapping	1000

Closed and Open Corner Protectors

Closed corner protectors are similar to expanding corner protectors but designed for common set thicknesses. Open corner protectors are for protecting the corners of cuboid items such as cupboards, cabinets, cartons, etc...

Code	Description	Pack Qty
PCP73030	Plastic Closed Corner Protector 7mm x 30mm x 30mm	3000
PCP186060	Plastic Closed Corner Protector 18mm x 60mm x 60mm	2000
PCP246060	Plastic Closed Corner Protector 24mm x 60mm x 60mm	1000
CPO	Plastic Open Corner Protector 60mm x 60mm x 28mm	1000

Silica Gel Sachets & Desiccants

Silica gel is a crystallised chemical which absorbs moisture caused by condensation and damp conditions. These sachets help to prevent corrosion and damage by rust and fungal growth and are imperative for export, long-term transit and storage.

Speak to our Sales Team about air-tight foil packaging and moisture barriers for your products.

Code	Description	Pack Qty
SGS001	Anti-Corrosion White Silica Gel Sachets 1 gram	500
SGS005	Anti-Corrosion White Silica Gel Sachets 5 gram	250
SGS010	Anti-Corrosion White Silica Gel Sachets 10 gram	250
SGS025	Anti-Corrosion White Silica Gel Sachets 25 gram	500
SGS050	Anti-Corrosion White Silica Gel Sachets 50 gram	250
SGS100	Anti-Corrosion White Silica Gel Sachets 100 gram	125
SGS250	Anti-Corrosion White Silica Gel Sachets 250 gram	60
SGS500	Anti-Corrosion White Silica Gel Sachets 500 gram	30

Transit Packaging Monitor Indicator Labels

A selection of labels indicating mishandling of a package, your customer can easily see if the parcel has been mishandled during transit and sign as damaged.

ShockWatch Indicator: Indicates rough and inappropriate handling.

Drop 'N' Tell Indicator: Indicates package has been dropped.

Tip 'N' Tell Indicator: Indicates package/pallet has been tipped.

Code	Description	Pack Qty
SWI	ShockWatch Indicator	100
DNTI	Drop 'N' Tell Indicator	100
TNTI	Tip 'N' Tell Indicator	100

Looking for an Environmentally Friendly Alternative to Foam Edge and Corner Protection?

ProTectaPad is your perfect solution...

100% Recycled and 100% Recyclable!! - ProTectaPad is manufactured using multiple layers of single faced corrugated paper giving a very hard wearing and environmentally friendly alternative to PE Foam and polystyrene. Due to the corrugated material used it can bear heavy loads and is useful for a wide range of applications and transit environments.

Standard profiles are available with perforations at regular intervals making it flexible for a wide range of products or if you need something a little more bespoke speak to our sales team for a tailored solution that fits your products perfectly.

System 90 - looking for increased pallet stability??

System 90 is a cardboard edge protection product available in a wide range of sizes and materials. Primarily used for pallet stability these edging strips can be used for a wide range of edge protection applications such as furniture protection, display protection and strapping protection.

Specialist Applications:

- **Moisture Resistant:** for use in damp conditions.
- **Channel Strips:** U profile strips for containing lengths of strip or tube products.
- **Plastic Edging:** Water Proof for use in wet conditions.
- **Composite:** for use in damp conditions where weight is an issue.
- **Notched Edging** - Ideal for corners and protecting rounded items.

Code	Description	Pack Qty
S935100	System 90 Edge Protection 35mm x 35mm x 1000mm	50 lengths
S950150	System 90 Edge Protection 50mm x 50mm x 1500mm	50 lengths
S950200	System 90 Edge Protection 50mm x 50mm x 2000mm	50 lengths
S975120	System 90 Edge Protection 75mm x 75mm x 1200mm	50 lengths

Pulp Packaging

Protective packaging manufactured from recycled paper pulp which is pressed into a form to give a strong crumple resistant packaging which can be used for a variety of packaging applications. Any shape can be pressed from a mould which perfectly fits your product and protects it from the rigours of transport.

Pulp packaging is one of the most environmental packaging options on the market using 100% recycled material and being 100% reusable, 100% recyclable, 100% Bio-degradable, and using minimal energy consumption in manufacture.

Available Preformed Options

A range of corners, channel and edge protection are available from stock in plain and ribbed variations ideal for protecting a range of corners and edges.

Applications include:

PVC & wooden windows, PVC & wooden doors, radiators, kitchen doors & cabinets, office furniture, mirrors, etc...

Acid Free Tissue Paper

Acid free tissue for wrapping delicate items and items prone to scratching or 'buffing'. This product is also available in a range of colours for presentation wrapping or hamper filling.

Code	Description	Pack Qty
AFT3545	Acid Free Tissue 350mm x 450mm (White)	2 Reams
AFT4570	Acid Free Tissue 450mm x 700mm (White)	1 Ream
AFT4570BLU	Blue Acid Free Tissue 450mm x 700mm	1 Ream
AFT4570GN	Green Acid Free Tissue 450mm x 700mm	1 Ream
AFT4570PK	Pink Acid Free Tissue 450mm x 700mm	1 Ream

Wrapping/Filler Paper

White news offcuts for general wrapping and voidfilling. Ideal for use as a low volume environmentally friendly option to loosefill.

Code	Description	Pack Qty
WNO1515	White News Offcuts 375mm x 375mm	10 kg
WNO1720	White News Offcuts 425mm x 500mm	10 kg
WNO2030	White News Offcuts 500mm x 750mm	10 kg

Protective Crepe Paper

Creped paper for added protection for heavy and sharp items. Also available with a wax coating for added protection against water damage.

Code	Description	Pack Qty
CPH8080	Crepe Paper Hand Roll 80mm x 20m	36 rolls

Siliconized Paper Sheets

Siliconized paper sheets for applications where a non-stick surface is essential.

Code	Description	Pack Qty
GLAC200	Silicone Coated Paper Sheets 500mm x 750mm	1 Ream

Plastic Fluted Sheeting

The perfect product for waterproof lining and heavy duty protection for highly abrasive products. This product is made to order, although a few popular items are listed below, and is available in a wide range of flute thicknesses and plastic weights as well as a range of colours. Please speak to our sales team for more details.

Code	Description
PFS30804BLK	Plastic Fluted Sheet 1220mm x 2440mm x 3mm Black
PFS30804BLK	Plastic Fluted Sheet 1220mm x 2440mm x 3mm Black Fire Retardant
PFS50804GN	Plastic Fluted Sheet 1220mm x 2440mm x 5mm Green
PFS80804CLR	Plastic Fluted Sheet 1220mm x 2440mm x 8mm Clear

What can we do with Polystyrene?!

Well...we can certainly have some fun with it!!...

Are you involved with exhibitions, display work, or signage?

Polystyrene is a great material to use due to its light weight, ease of cutting and ease of manoeuvrability. We offer a range of letters and numbers along with a unlimited range of bespoke lettering, shapes, and moulded items.

MD Polystyrene Sheets

Medium density packaging grade polystyrene for use as a protective covering and interleaving product. Also ideal for lining containers and vans to prevent damage during transit.

Code	Description	Pack Qty
EPS704816	Polystyrene Sheet 1220mm x 2440mm x 16mm	18 Sheets
EPS704825	Polystyrene Sheet 1220mm x 2440mm x 25mm	12 Sheets
EPS704850	Polystyrene Sheet 1220mm x 2440mm x 50mm	6 Sheets
EPS704875	Polystyrene Sheet 1220mm x 2440mm x 75mm	4 Sheets
EPS7048100	Polystyrene Sheet 1220mm x 2440mm x 100mm	3 Sheets

Ecopax Cardboard Shredders

- Ecopax Converters turn small quantities of old cardboard into lots of packaging material within a short time
- Ecopax Converters create either Void Fill or Protective Matting Material which reduces packaging costs and is ecologically beneficial
- Operator friendly feeding of cartons with punched measuring scale for precise packaging units
- Various sizes of cardboard boxes are automatically processed and tailored in one single step
- Standard dust extraction device built into most models

Convert your waste cardboard into protective packaging!!

What could be more cost-effective than converting your waste cardboard into protective voidfill? Instead of paying for waste collection, invest in one of these great little machines that will convert your waste into useful packaging.

CP316S2-I Single Phase Cardboard Shredder

- Starter level cardboard shredder
- 320mm wide cardboard shredding
- 10mm maximum thickness
- 2hour run time
- Production output = 1-2 m³ per hour
- No dust extraction

CP320S2-I Single Phase Cardboard Shredder

- Medium level cardboard shredder
- 320mm wide cardboard shredding
- 12mm maximum thickness
- 2hour run time
- Production output = 2-3 m³ per hour
- Dust extraction option

CP422S2-3PH Three Phase Cardboard Shredder

- Advanced level cardboard shredder
- 420mm wide cardboard shredding
- 15mm maximum thickness
- Unlimited run time
- Production output = 4-6 m³ per hour
- Dust extraction option

CP428S2 Three Phase Cardboard Shredder

- Advanced level cardboard shredder
- 420mm wide cardboard shredding
- 17mm maximum thickness
- Unlimited run time
- Production output = 6-9 m³ per hour
- Dust extraction option

Single and Three phase dust extraction units compatible with our cardboard waste shredders.

Code	Description	Pack Qty
EPDEB200	Standard Ecopax Dust Extractor Bag	100
EPDEB400	Premium Ecopax Dust Extractor Bag	50
